costa coffee

Having previously worked with Pizza Hut, o@tes was asked to tender for a project for the franchisee element of Costa Coffee, by PEP Project Management.

Having won the tender for their first Costa Coffee project, o@tes has now completed the creation of 10 new stores in England. Each and every Costa Coffee project was completed on time and to an extremely high standard. As a direct result of o@tes excellent service, they have now been added to the approved contractors list for Costa Coffee corporate division.

Through PEP Project Management, o@tes are now able to provide a full package to Costa Coffee, including liaising directly with suppliers for such items as coffee machines, tables, chairs and signage.

o@tes truly provide a complete service of construction and management to all corporate and franchise chains, and looks forward to adding more to their portfolio.
